Note Handling

Lower Cost
of Ownership

Superior
Ease of Use

MEI CASHFLOW® SC series sets the standard for note acceptors worldwide. With the knowledge MEI has gained from building over 3 million note acceptors, we make a difference to your customers, your performance and your profitability.

Because of its industry leading features and proven technology, MEI CASHFLOW® SC series is designed to perform at the highest levels in security, reliability and quality for customers who demand the best.

1. Advanced Acceptance & Security

MEI CASHFLOW® SC series incorporates a unique recognition and processing system that has a higher overall acceptance rate for all notes that eliminates consumer frustration.

Features include:

- ▶ Unrivaled security through full-scan "light bar" source, which provides six wavelengths of light.
- ▶ Increased security from lensed receiver that scans 300% more note surface.
- ▶ Advanced recognition algorithms facilitate higher acceptance rates.
- ▶ Cashbox dispute resolution window shows the value area of the last note stacked in the cashbox, requiring no removal or opening.

2. Exceptional Note Handling

MEI CASHFLOW® SC series ensures best possible acceptance upon first insertion.

- ▶ Unique design allows note insertion from any angle.
- ▶ Short note path is sealed against fluid and dust, significantly decreasing the risk of jams.
- ▶ Best acceptance of street quality notes whether crumpled, torn, or wet.

3. Lower Cost of Ownership

MEI CASHFLOW® SC series design combines functionality and durability resulting in fewer technician visits.

- ▶ Industry's most durable cashbox.
- ▶ Rounded exterior design protects internal mechanisms and drive gears while securing the cash in the dual lock cashbox.
- ▶ One machine can serve all markets and geographies.

4. Superior Ease of Use

- ▶ At-machine diagnostics with color-coded LEDs.
- ▶ Features a one-hand extraction, ergonomic cashbox.
- ▶ Modular components facilitate easy access.

MEI

When MEI developed the first electronic note acceptor 30 years ago, it influenced payment systems in many major industries, such as Gaming, Retail, Vending and Transportation. Today, MEI electronic payment systems are relied upon for more than 2 billion transactions a week in over 100 countries. MEI is considered the most reliable choice in hundreds of real-world applications and has earned the best performance reputation in the market.

MEI Retail

Retail environments vary both in their demands and type. Therefore, a banknote acceptor has to offer flexibility in both storage capacity, customer interface offerings, and integration options. The MEI CASHFLOW® SC series provides all these and more, designed to meet the demanding needs of retail cash management whether in cash deposit systems, gas pumps, security applications, self service check outs or kiosks.
